ePOS iPad

中式酒樓 CHINESE BANQUET

Q 轉用eMenu 每個月慳返六千蚊印刷點心紙費用

Switching to eMenu saves us \$6,000 per month on printed order sheets.

Q 新舊老中青同事都好快上手

All staff, young and old, adapt quickly.

Q 全港首創定位落單好Work唔怕比人玩單

It's Hong Kong's first system for streamlined order placement.

百樂金宴

eClock 打卡鐘

Inventory 库存

冰室 CAFE

Q 冰室同事要求都一一達到

The café staff's requests are all met.

Q 廚房打印機可以連 Wifi + Lan 線 好穩陣

The kitchen printer can connect via Wi-Fi and LAN for stability.

Q 手機 App 可以一次過管理我地全線分店

The mobile app allows us to manage all our stores at once.

重量制 WEIGHT-BASED

Q 按重量收費，價格直接到POS，秒速結賬

Weight and prices directly to POS, easy checkout.

Q 會員系統多元化，最喜歡可以儲飲品套票

Diverse membership system with beverage coupon.

Q 會員可充值，折扣多，會員可以積分當錢用

Members can recharge, enjoy various discounts, and use points as cash.

eBooking 搞訂購

40年老店

A Business with 40 Years of History

參加DTSPP數碼轉型先導計劃後感想：

Reflection on Participating in the DTSP Digital Transformation Pilot Program:

Q 即時數據查詢

過去需在店內電腦查詢銷售紀錄，收入報告要到午夜才收到。現在透過手機應用程式，隨時查看生意額，節省會計人員時間，減少錯誤。

Previously, sales records were checked on in-store computers, and income reports were received at midnight. Now, the mobile app provides instant access to sales figures, saving accountants time and reducing errors.

Q 創新的點餐方式

在印度，數字化點餐系統已非常成熟，但香港尚無素食餐廳使用QR碼落單，這讓他們成為市場上的先驅。新同事只需查看照片即可了解菜式內容，客人亦可透過照片來加快點餐速度，提升對菜品的認知。

In India, digital ordering systems are well established, but no vegetarian restaurants in Hong Kong use QR codes for ordering, making them pioneers in the market. New staff can understand dish contents by simply looking at photos, while customers can speed up their ordering process and enhance their knowledge of the dishes through images.

Q 無需拉線的優勢

系統設置簡便，廚房內不需設置實線，避免了因實線問題影響收單的情況，現在運行非常流暢。

The system is easy to set up, eliminating the need for wired connections in the kitchen, which avoids issues that could affect order processing. It now runs very smoothly.

Q 跨境會員及支付整合

香港和澳門的會員系統通用，使得管理跨地區的業務變得更加方便。此外，澳門還連接了澳門通等主流支付方式，讓餐廳能夠輕鬆處理不同地區的支付需求，進一步簡化了運營流程和提升了顧客的支付體驗。

The membership system in Hong Kong and Macau is compatible, streamlining cross-regional management. Macau has integrated payment methods like Macau Pass, allowing restaurants to efficiently handle transactions and improve customer experience.

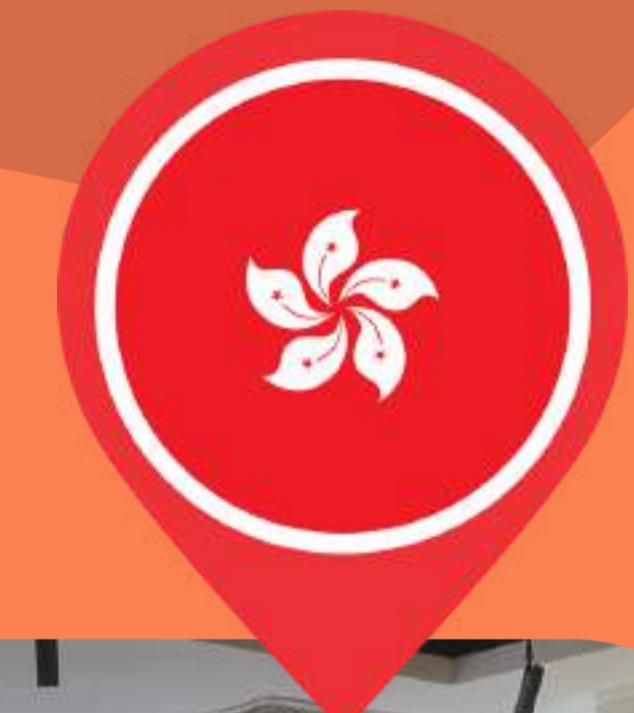

Q 政府資助的經濟效益

透過政府的計劃，我們只需支付一半費用，而未來幾年內無需再支付POS系統的費用，進一步強化了我們數碼轉型的理由。

Through the government program, we only need to pay half the cost, and we won't have to pay for the POS system in the coming years, further strengthening our case for digital transformation.
